Megacab Longbed Conversion

Tired of waiting for Dodge to come out with a longbed Megacab? Thanks to Precision Bodyline, you no longer have to wait. Precision Bodyline, a professional collision repair shop and car dealer, can convert Megacabs to longbeds by extending the frame with custom fabricated steel segments, which are engineered for maximum structural security and assembled by professional welders. For more information, call Precision Bodyline at (801) 397-0581 or visit www.longbedmegacab.com.

Cummins Adapter Plate

The Cummins-to-4R100 adapter plate from DeStroked makes it possible to transplant Cummins engines into Ford vehicles and is available for 12 or 24 (shown) valve 5.9-liters. The 24-valve plates have the o-ring groove to seal the rear camshaft. There is no need to clearance your transmission with this adapter plate.

Includes transmission mounting bolts and starter mount bolts. When used with the DeStroked billet hybrid flexplate, use the Ford torque converter of your choice. For more information, visit www.destroked.com or call (303) 945-7570.

NO MORE FILTER OIL

DRYFLOW

DRYFLOW OIL FILTERS - CONICAL & PANEL

- INCREDIBLY EASY TO CLEAN
- OUTSTANDING DURABILITY
- 99.5% FILTRATION EFFICIENCY
- EXCELLENT FLOW PROPERTIES
- MADE IN USA

"In Baja we've run every type of filter element available. The only one I trust 100% is AEM's DRYFLOW. It sheds dirt, doesn't clog, and makes the horsepower we need. What else is there to say?"

Rand Kramer, KURE Performance
